Art Unit: 3723

Claim 1-3 and 6-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 9-10 the alternative phrase "on either the central pillar or the positioning hole" renders the claims vague and indefinite. Further the alternative recitation is found to be misdescriptive since the shuttle is support on the central pillar **and** the positioning hole. In claim 1, line 11 there is no proper antecedent basis for "the other" thus rendering the claims indeterminate of scope.

Claims 4-5 are allowed.
